

# LOW CARBON WOLVERCOTE

## Bicycle Clinic

We hope to be at the Farmer's Market every Sunday at Wolvercote Primary School from ten to one. We can help you with maintenance, punctures, brake problems and other minor repairs. Please let others know about the clinic.

In order to be able to offer this service we need to expand our pool of mechanics. We are particularly looking for young people interested in acquiring repair skills who would like to complete a short course provided by the Oxford Cycle Workshop (Magdalen Road, East Oxford [www.oxfordcycleworkshop.org.uk](http://www.oxfordcycleworkshop.org.uk)).

LCW can cover the costs involved. If you are interested, please contact Tim Morris - 512860; [tim@timmorris.info](mailto:tim@timmorris.info).

### **Low-carbon Wolvercote - being creative about saving energy and money!**

Reclaim the streets day, Car Clubs, village hall solar panels, swap shops, low-carbon parties, street reps, Bicycle Clinic ....

Please join us for a drink in The Red Lion, Lower Wolvercote on the first Thursday of every month at 8pm, to share ideas and to help each other reduce our individual and community carbon footprint.

Contact Madeleine Metcalfe [maddy@meadow28.free-online.co.uk](mailto:maddy@meadow28.free-online.co.uk); 516741 for more information or to be added to our mailing list.
